

STEP BY STEP PROJECT

Listen - Step By Step-Project feat. Seraina Telli

Lyrics written by Seraina Telli

Listen!

Communication means not only just talking
But apparently you still believe it's so
Communication means sending - receiving
But you're sitting in a one-way-train

In your case it is just a lot of bla bla
And to be honest I don't really get what you say
In your case there is just a lot of you, and you and you

We together?
Not now or ever
'Cause I don't really get what you say
'Cause I don't really get what you say
You need to listen
To understand
You're not the only one in this world
The only one who has something to say

You don't even try ...
You don't even know ...
Ohh

I can't hear you
Babe 'cause you don't listen to me
I can't feel you
'Cause you don't know how you want to be
I don't judge
How could I ever – you don't know what you do
That's why I can't hear you
Babe 'cause you don't listen to me

I can also deal with a lot of words
You'll realize it when listening to this song
But it's more important to know when to shut up

We together?
Not now or ever
'Cause you're sitting in a one-way-train
'Cause you're sitting in a one-way-train
You need to listen
To understand
All the things you might miss in this world
All the big and small wonders
You don't even try ...
You don't even know ...
Ohh

I can't hear you ...

You don't even try to prove me wrong
You don't even know that you're in trouble

I can't hear you ...
